General Information

Presentation Night

Saturday, 21 September 2019 – 1730hrs – CRC BBQ

Social Dinner (in town):

Friday, 25 October 2017 – 1900hrs – Venue TBC

Shooting Times

A draw for shooting order will normally be conducted 10 minutes before the scheduled shooting time, which is 1330 hrs unless otherwise stated.

If a decision to start shooting is delayed (e.g. by inclement weather) beyond one hour of the scheduled shooting time, then a practice shoot only may be held and no competition will be decided on such a day.

All club shoots, excluding service, field class and long range rimfire matches, are to be conducted on Electronic Targets in either A or B Block assuming that there is someone present who is familiar with the mandatory set up and put away protocols for those targets.

300m McIntosh Service shoots will be shot on Saturday afternoons on manual targets on the block next to the ones with the ETs being used. Participants must be at the draw given that competitor marking MAY be required. Normal range fees will apply, though a free practice shoot on the ETs after the service is available.

Ad Hoc Range Use

Members wishing to use the range at other than the programmed dates and times must first obtain the Range Booking Manager's approval. Other users must have the Committee's approval.

The Range Booking Manager will advise on what targets may or may not be used, and will resolve any booking clashes as they see fit.

Booking and range fees will be levied for every instance of ad hoc range use (including usage by members) in accordance with a schedule approved from time to time by the Committee.

It may also be necessary to obtain the approval of external authorities in order to meet conditions of the ACT Firearms Act and the Club's tenure over the range and its danger zone.

Range Standing Orders

All shooting on the range shall be conducted in accordance with the Range Standing Orders. A copy is posted on the noticeboard in the clubhouse.

In particular it states: *"The firearm action can only be closed and/or cocked when the firearm is pointed directly at the target/butts from the firing point, and all shots are to be fired so that projectiles are safely captured by the relevant stop butt."*

All persons on the range are advised to wear hearing and eyesight protection at all times whilst shooting is in progress.

Danger Signs and Flags

No shooting may be conducted anywhere on the range, including the Zero Range, unless ALL danger signals have been deployed. At the conclusion of shooting, these signals must be returned without fail to their allotted storage location.

Zero Range

The firing point is located on top of the mantlet at the North Eastern end of A Block. All shots are to be fired into the stop butt. Any intending users of the zero range must arrive early enough to ensure they have vacated the area 60 minutes before the scheduled start of shooting. This is when the butts area set up will start. The Range Officer may request that the zero range be vacated at any time.

Firearms Licences

All members and users of the range may be required at any time to satisfy the Club that they hold a valid Firearms Licence as issued by the State or Territory in which they reside.

This is especially the case when purchasing ammunition or ammunition components from the Club. Consequently, you should carry your current Firearms Licence and your current NRAA Membership Card at all times.

One of the conditions for the renewal of your Firearms Licence is that you can demonstrate actual use of your firearms. In the context of target shooting, the basic test is firing a shot at an approved event conducted by an approved Club on at least four days per annum.

Prospective Members

A prospective member, even someone not in possession of a relevant Firearms Licence, may shoot a rifle under the supervision of an Authorised Instructor.

Although the Association has direct access to firearms safety courses which are accepted respectively in the ACT and NSW, it is often more expedient to approach a commercial supplier of such courses, e.g. SSAA ACT.

Authorised Instructors are appointed iaw with a scheme approved by the ACT Firearms Registrar / NSW Firearms Registry.

Programme Variations

The Committee reserves the right to alter the published programme for whatever reason. A championship shoot cancelled for any reason (including inclement weather) will only be rescheduled if it is the second occasion of that particular distance being cancelled in the current season. In that case the shoot will take place on the next available spare day or 900 metres day – the Roberts Spoon days are only to be used as a last resort.
